Webinar Coordinator

Mrs. C. M. Neeraja
Faculty, CTE AMS

About Webinar:

Education is a very powerful instrument for social change and transformation. The purpose of education is to facilitate learning and to impart knowledge, skills, beliefs, and habits. Educational methods include teaching, training, story-telling, discussion and directed research. One of the biggest challenges for teachers across the ages has been to keep the students in the

Two- Day Webinar on
Innovative Teaching Methods on 29th & 30th September 2020

classroom engaged and attentive to the content that is being taught. Over the years, innovative and enterprising teachers have come up with unique ideas to help the students connect with the subject, like introducing games and presenting video to make the topics more relatable and to boost engagement rate between student and teacher.

Today, in the Age of COVID-19, 'work-from-home and learn-from home' is the new mandate in almost every part of the world. In this scenario, schools have adopted virtual classrooms as the new norm and educators are making every valiant effort to create interest in learning. Teachers in the modern era need to unlearn their processes and teaching methods and adapt themselves to the current changes in didactics for the use of innovative teaching methods.

In recent times, the introduction of technology in the classroom has helped enrich and enhance the pedagogical process. Tools such as Interactive Whiteboards, Virtual Reality, Augmented Reality, Video and Game based learning among many others have transformed the new-age classroom and made learning more interesting than ever before.

The new Education Policy 2020 has given emphasis on improving the teaching methodologies and replacing rote learning with conceptual learning at all levels which avoids students to mug up what they are being taught. This requires teachers to become like- learning coaches and innovate variety of student- centric approaches for each subject.

The Webinar is aimed at exploring newer and innovative teaching methodologies adopted by teaching professionals in their day-to-day classroom experience that makes learning a fun and transform youth as warriors in building India as a global knowledge super power.

Target Participants:

Government Teachers, Private Teachers, Trainee Teachers, Students and Research Scholars.
