

Best Practices 2018-2019

Best practices are an inherent part of a curriculum that exemplifies the connection and relevance identified in educational research. Four best practices for teachers include teaching a balanced curriculum, teaching an integrated curriculum, differentiating instruction to meet individual student needs and providing active learning opportunities for students. It was the founder Dr. Durgabai Deshmukh's vision to nurture an environment which empowers women towards social, economic, cultural and educational self reliance, to lead an empowered life. Teachers occupy an important place in the society and they are the agents of social change. Teachers need to address certain areas that harm the environment like Global warming, Air pollution, Water pollution, and Plastic Pollution. The college always strives to adopt best/innovative practices. One of the best practices is "Beat Plastic Pollution"

Best Practice- I Beat Plastic Pollution

Plastic is everywhere nowadays. People are using it endlessly just for their comfort. However, no one realizes how it is harming our globe. We need to become aware of the consequences so that we can stop plastic pollution. Parents and Teachers need to teach their wards from their childhood to avoid using plastic. Similarly, adults must check each other on the same. In addition, the government must take rigorous measures to stop plastic pollution before it gets too late. Plastic Pollution is affecting the whole earth, including mankind, wildlife, and aquatic life. It is spreading like a disease which has no cure. We all must realize the harmful impact it has on our lives so as to prevent it as soon as possible. Plastic pollutes our water. Each year, tonnes of plastic are dumped into the ocean. As plastic does not dissolve, it remains in the water thereby hampering its purity. This means we won't be left with clean water in the coming years. One of the greatest responsibilities of the present generation is to provide safe and secure future to the future generations. When humans dump Plastic waste, the soil gets damaged. It spoils the fertility of the soil. In addition to this, it leads to deadly diseases.

College of Teacher Education, Andhra Mahila Sabha initiated various programmes in connection with one of the greatest environmental challenges i.e., Plastic Pollution. Plastic is polluting oceans, impacting biodiversity and affecting human health. This year the theme of the World Environment Day is "Beat plastic pollution". There is a dire need for the world to work together to address and raise global awareness of the need to reduce the heavy burden of plastic pollution on people's health and the threat it poses to the environment. World Environment Day

was created to inspire the people across the world for the active participation to save the earth, and ensure that the future of our planet is safe. On 5th June every year, the World Health Organization (WHO), United Nations and thousands of communities and organizations celebrate World Environment Day to create community consciousness. The students of M.Ed. Course organised Swachh Bharath Programme and removed the garbage in the college premises. They have organised a rally to the entire sister institutions with placards and slogans. A programme is organized in connection with world environment day. The students of all the courses shared their views to protect our environment. They also shared the strategies to beat plastic pollution.

Plastic pollution is ruining everyone's life on earth. We must take major steps to prevent it. We must use alternatives like cloth bags and paper bags instead of plastic bags. If we are purchasing plastic, we must reuse it. We must avoid drinking bottled water which contributes largely to plastic pollution. The government must put a plastic ban on the use of plastic. All this can prevent plastic pollution to a large extent.

Best Practice- II Job Mela-2019

A job mela is an event where multiple recruiters meet with potential employees in one convenient, neutral venue, such as a school or college. Many companies save their time and efforts on recruiting by participating in these events. Job melas are a place where job seekers can literally meet potential future employers face to face. With so many opportunities, job seekers are forced to practice communication skills. A job mela is an event where a job seeker can connect with employers and recruiters face-to-face. For a job seeker, a job fair/ mela can be an excellent source of employment information and a place to apply for many jobs at one time. For an employer, a job fair provides an ideal forum for meeting and doing initial screenings of potential employees or interns.

The fruit of every effort is fructified only when it is implemented. It is the practice of the college to conduct Job Mela every year to seek gainful employment to the students. The College of Teacher Education, Andhra Mahila Sabha organized Job Mela for 2018-19 Batch Students and previous alumini of the College on 28.03.2019 at CTE AMS Campus from 10:00 A.M. to 4:30 A.M. The Students of P.G. Dip in ECCE; B.Ed Regular; B.Ed Spl (H.I) & M.Ed courses along with Outside male and female qualified candidates attended the Job Mela.

The Management and the Principal of the College encouraged and supported the smooth organization of the event. The Chief Guest Smt. Gariganti Sridevi, Corporator, Nallakunta, Vidyannagar, Hyderabad was invited and she inaugurated the event of Job Mela and graced the

occasion. An extensive preparation was done before organizing the Job Mela. Total 25 International and State Level Schools from Hyderabad and Secunderabad participated in the Job Mela. Total 72 In-house CTE AMS students from all courses that is 02 from M.Ed; 43 from B.Ed Regular; 07 from B.Ed Spl (H.I); 19 from P.G. Dip in ECCE; and 01 from D.El.Ed attended the interview. Apart from all In-house CTE AMS students; 49 outside male and female candidates belonging to teaching profession also attended the Job Mela. At the preliminary round all the schools scrutinized the students, short listed and called them for demonstration. The Job Mela 2019 was well organized and appreciated by all the school managements, students and teaching staff. The Job Mela was covered by Print Media. Most of the students got placements in various International and Corporate schools. 50% of the students from B.Ed. Spl. 90% of the students from P.G. Dip in ECE, 50% of the students from M.Ed. and 50% students from B.Ed. got placements in different highly reputed State and International schools from the twin cities. This year College of Teacher Education AMS has provided an opportunity for the students of other colleges to participate in job mela.

College of Teacher Education, AMS prepares the students to face the interviews confidently by providing opportunities to take part in different programmes. The college has been organising programmes in Gandhi Bhavan on 4th Friday of every month. The students of different courses take part in different programmes like Skits, Dance and Auto Biographical reading.

The celebrations and observations of various days in the College enhance their skill of anchoring and public speaking. In this way the college of education tries to better the lives of women by building their capacities and enhancing their professional gains. The college has its brand name in twin cities and students of the college are given weight age in the process of recruitment as teachers in their reputed institutions.
